DENNIS D. SMITH

HIGHLIGHTS:

Dennis D. Smith has considerable experience as a boat yard employee and manager, as a hands-on professional in a full service boatyard where he directed and managed a staff of 20 full-time employees. He has covered countless nautical miles as a professional delivery skipper of both workboats and yachts. He has an extensive background in automotive and equipment manufacturing and repair. With a lengthy background in the marine industry and a strong mechanical background, Mr. Smith joined Marine Surveyors and Consultants, Ltd. as a full-time marine surveyor in January 1976.

EXPERIENCE:

MARINE SURVEYORS AND CONSULTANTS, LTD.

President and Principal Marine Surveyor 1976 to Present

Professional Marine Surveyor specializing in yachts, commercial fishing boats and work and passenger vessels. Thorough condition and valuation surveys for prospective purchasers, and insurance coverage and renewals. Reliable appraisals to determine vessel values for probate, arbitration or donations.

Accident investigations and reports to insurance underwriters to describe the extent of damage, costs to repair and the cause and nature of the casualty. Organize and oversee salvage and recovery of stranded, grounded or sunken vessels.

Expert witness in over 200 cases since 1976 on marine related matters in Federal, State, Family and Probate Courts in Hawaii, Florida, Washington, California and American Samoa. Available to travel throughout the United States and Pacific Basin. Expert Trial preparation working with attorneys on pre-trial research and investigation. Court appointed arbitrator in vessel accident cases and court appointed receiver in admiralty actions.

Assisted with the design and construction supervision of over 25 commercial and fishing vessels, including the passenger vessels MAKA KAI, TERALANI 2, EXPEDITIONS II and III and SEA SPORT. NAKUE, a high speed oil containment vessel and KATHLEEN, a large commercial fishing vessel.

Preparation of derelict, abandoned and severely damaged vessels for at sea or land disposal, complying with EPA and Coast Guard regulations. Recent projects include WILLIAM B, a 160 foot fishing vessel, NEW STAR, a 100 foot workboat, ADVENTURE V, a 120 foot passenger vessel and SEA TIGER a 180 foot refrigerated packer.
